« Ku-Band Capacity over Middle East »

Ku-band Payload

Location: 1°West
Target area: Middle East

Polarisation downlink: Horizontal

Transponder capacity:
2 Ku-band (6 in equiv. 36 MHz units)
Transponder bandwidth:
112 MHz

Uplink frequency band:
14.25 - 14.50 GHz
Downlink frequency band:
11.45 - 11.70 GHz
