

SINTELSAT BROADBAND SERVICE COVERS MOST AFRICA

Sintelsat VSAT Broadband Solution
with Shared Service Platform

“Simplicity and Flexibility in One Box”

iNFINITI®
3000/5000/7000 series

Evolution® X3

iNFINITI® TDM

iDirect's iNFINITI routers support a unique IP-based TDM/D-TDMA satellite transmission technology that enables customers to intelligently share network capacity across multiple locations, allocating bandwidth in real time and on demand.

EVOLUTION® DVB/S2

iDirect's Evolution routers support DVB-S2 with Adaptive Coding and Modulation (ACM), a bandwidth-efficient technology for networks with larger outbound capacity requirements (speeds up to 140Mbps).

Stocks are available in Nigeria, South Africa, Djibouti & Dubai.

Hub in Germany with redundant fiber backbone connectivity to USA, Western Europe and rest of the world.

TIIN at 37.5°W

**Powerful
Ku-band
for Africa**

• Focused coverage of
Western and Southern Africa
